About the Company

For more than three decades, SIC has supported India's largest mining, steel, cement, and power plants with reliable products, engineered solutions, and dependable on-site services.

Founded in Chhattisgarh by the Shah Brothers and now serving customers across India, SIC has built its reputation on engineering excellence, operational reliability, and long-term customer partnerships.

Having primarily specialised in the supply of niche industrial products, the company is today strategically broadening its capabilities by establishing a strong presence in the services domain - offering end-to-end solutions and expanding its footprint across multiple states in India.

Our Vision

To be India's most trusted partner for mission-critical industrial solutions that enhance plant reliability, safety, and efficiency.

Our Mission

To deliver high-performance products and lifecycle support that reduce downtime and total cost of ownership for every plant we serve.

Core Values

- Reliability
- Integrity
- Customer Focus
- Safety
- Innovation
- Long-Term Partnerships

OUR SOLUTIONS

Products & Services

1

Power Transmission & MHE

Gearboxes, couplings and material-handling equipment for continuous heavy-duty operation.

2

Mining Solutions

End-to-end crushing, screening and wear systems for rugged, high-load environments.

3

Hydraulics Solutions

Power packs, cylinders and control circuits for precise force and motion.

4

Drive Solutions

Variable speed drives and motor control for maximum efficiency and energy savings.

5

Conveyor Spillage Control

Belt cleaning, sealing and impact systems that eliminate spillage.

6

Wear Protection

Hardfacing plates and liners that extend the life of high-wear assets.

7

Instrumentation & Automation

Sensing, measurement and automation for reliable process control.

8

Pneumatic Control

Pneumatic actuation and control components for clean plant automation.

9

Weighing Solutions

Belt weighers and load systems for accurate, audit-ready measurement.

OEM Partners & Industries

World-class OEM Partners

- **Elecon** Power transmission - full gearbox range (helical, planetary, worm, marine, custom) and c
- **FLSmidth** Crushing, screening and process technology for mining and cement.
- **Emerson** Process instrumentation, control valves and automation systems.
- **KSB MIL** Industrial pumps and valves for demanding flow-control duties.
- **Vautid Germany** Hardfacing plates and wear-resistant liners for high-wear assets.
- **Rolkobo** Idlers, pulleys and conveyor components for bulk handling.

Industries Served

MINING

STEEL

CEMENT

POWER
